STANDARD ENQUIRIES

Local Plan

The Adopted Local Plan forms part of the statutory development plan for the Leeds district. It sets out the council's vision and strategy for the area until 2033, and provides the basis for decisions on planning applications.

The Leeds Local Plan includes a Policies Map which shows all the areas in the Leeds district where different policies apply. The Policies Map will be revised and updated as each Development Plan Document is adopted. As at July 2019 the Policies Map comprises the:

- Saved UDP 2001 and UDP Review 2006 policies
- Natural Resources and Waste Local Plan (adopted January 2013 & revised September 2015)
- Core Strategy (adopted November 2014)
- Aire Valley Leeds Area Action Plan (adopted November 2017)
- Site Allocations Plan (adopted July 2019, and subsequently amended by High Court decision on 7th August 2020.)

NB Under the Department for Transport's Integrated Rail Plan the Eastern section of HS2 has been scheduled for cancellation. Leeds City Council no longer include any reference to HS2 in their Local Plan or Policies

3.6 TRAFFIC SCHEMES

Informative

In some circumstances, road closure orders can be obtained by third parties from magistrates' courts or can be made by the Secretary of State for Transport without including the council.

This reply is based on and limited to the information available to us at the time the search is answered

(i) This reply does not cover other properties in the vicinity

General Informatives (a)-(l)

1. The replies to these enquiries relate only to permanent or experimental proposals on roads, footways and footpaths that are already highways maintainable at public expense within the meaning of the Highways Act 1980 (s36).
2. Many of these smaller schemes can be introduced into or deleted from programmes at little or no notice. The replies should therefore be regarded merely as an indication of what may take place over the next few months.
3. "Approved by the Council" is presently defined by this Authority as "Schemes which have been included in a County Council funded Financial Programme for possible implementation in the current or forthcoming financial year". This means that funding has been provisionally allocated (but see also 2 above). However, in some cases further approvals are required before a scheme can actually be implemented. Minor TRO's are generally listed once approval has been given to advertise them.

Specific Informatives

- (f) The reply to (f) (vehicle width or weight restriction) relates to restrictions that will be covered by a legal order. It excludes environmental weight restrictions which have an 'except for access' clause.
- (g) The reply to (g) (traffic calming works) relates to proposals that involve physical construction on the carriageway. Proposals that are based purely or mainly on signing and lining will not be revealed.
- (h) The reply to (h) (residents parking controls) refers to proposals for the introduction or removal of residents parking controls. Amendments to existing waiting and loading restrictions within a residents controlled parking area will be revealed in the reply to enquiry 3.6(b).
- (i) The reply to (i) (minor road widening or improvements) covers proposals such as junction improvements, turning and acceleration/deceleration lanes etc., which are not revealed in the reply to 3.4. Pedestrian improvements (other than the construction of new footways) and improvements that are purely or mainly maintenance will not be revealed. Proposals for new or upgraded street lighting will not be revealed.
- (j) The reply to (j) (pedestrian crossings) covers proposals such as pedestrian refuges and new pedestrian crossings. Pedestrian crossing proposals that involve the maintenance, upgrade or improvement of existing facilities will not be revealed.
- (k) The reply to (k) (cycle tracks) relates to proposals that involve physical construction. Proposals that are based purely or mainly on signing and lining may not be revealed.
- (l) The reply to (l) (bridge construction) relates to proposals which are not revealed in the reply to 3.4 and which involve the substantial reconstruction of a bridge. Proposals for culvert reconstruction or for major or minor maintenance of bridges or for improvements to parapets/footways and the like will not be revealed.

This enquiry is designed to reveal matters that are yet to be implemented and could not therefore be ascertained by a visual inspection. Schemes that have been, or are currently being implemented will not be referred to in answer to this enquiry.

Has a local authority approved but not yet implemented any of the following for roads, footways and footpaths which are named in Boxes B and C and are within 200 metres of the boundaries of the property?

No

3.13 CONTAMINATED LAND

Informative

This reply is based on and limited to the information available to us at the time the search is answered.

A negative reply does not imply that the property is free from contamination or from risk to it, and the reply may not disclose steps taken by another council in whose area adjacent or adjoining land is situated.

The Environment Act 1995 introduced a contaminated land regime forming part IIA of the Environmental Protection Act 1990 which became effective in April 2000. This change saw owner/occupiers become potentially liable for clean up costs as a Class B "Appropriate Person".

Local Authorities are now responsible for preparation of reports on contamination in their respective areas and their subsequent local strategy. Local Authorities will intermittently inspect their areas in respect of contamination and take action against those seriously contaminated areas. Registers of remediation notices and contaminated land identified under s.78R must also be kept. These registers do not form lists of contaminated sites; rather sites where Remediation Notices have been served. It is intended that information will also be included with regard to the condition of the land in question.

Do any of the following apply (including any relating to land adjacent to or adjoining the property which has been identified as contaminated land because it is in such a condition that harm or pollution of controlled waters might be caused on the property)?

(a) a contaminated land notice

No.

(b) in relation to a register maintained under section 78R of the Environmental Protection Act 1990

The register maintained under S.78 of the Environmental Protection Act 1990 is currently being compiled.

(b) (i) a decision to make an entry

No

(b) (ii) an entry

No

(c) consultation with the owner or occupier of the property conducted under section 78G(3) of the Environmental Protection Act 1990 before the service of remediation notice

No

3.14 RADON GAS

Informative

This reply is based on and limited to the information available to us at the time the search is answered.

"Radon Affected Area" means a part of the country with a 1% probability or more of present or future homes being above the Action Level. Such areas are designated by the Health Protection Agency which also advises Government on the numerical value of the "Radon Action Level" (the recommended maximum radon concentration for present homes expressed as an annual average concentration in the home. Radon concentrations above the Action Level should be reduced below it and become as low as reasonably practicable).

The areas are identified from radiological evidence and are periodically reviewed by the Health Protection Agency or its predecessor the National Radiation Protection Board. Existing homes in Affected Areas should have radon measurements.

The present owner should say whether the radon concentration has been measured in the property; whether the result was at or above the Action Level and if so whether remedial measures were installed and whether the radon concentration was retested to assess the effectiveness of the remedy.

Radon preventative measures are required for new buildings in higher risk areas. For new properties the builder and/or the owners of properties built after 1988 should say whether protective measures were incorporated in the construction of the property.

Do records indicate that the property is in a "Radon Affected Area" as identified by the Public Health England or Public Health Wales?

No
(This answer is based on Landmark datasets as at 30/08/2023)

3.15 ASSETS OF COMMUNITY VALUE

Informative

This reply is based on and limited to the information available to us at the time the search is answered

(i) This reply does not cover other properties in the vicinity

(a) Has the property been nominated as an asset of community value?

No

If so:- (i) Is it listed as an asset of community value?

Not applicable

(ii) Was it excluded and placed on the "nominated but not listed" list?

Not applicable

(iii) Has the listing expired?

Not applicable

(iv) Is the Local Authority reviewing or proposing to review the listing?

Not applicable

(v) Are there any subsisting appeals against the listing?

Not applicable

(b) If the property is listed:

(i) Has the Local Authority decided to apply to the Land Registry for an entry or cancellation of a restriction in respect of listed land affecting the property?

No

(ii) Has the Local Authority received a notice of disposal?

No

(iii) Has any community interest group requested to be treated as a bidder?

No

INFORMATION

References to the provisions of particular Acts of Parliament or Regulations include any provisions which they have replaced and also include existing or future amendments or re-enactments.

The replies will be given in the belief that they are in accordance with information presently available to the officers of the replying local authority, but none of the local authorities or their officers accepts legal responsibility for an incorrect reply, except for negligence. Any legal responsibility for negligence will be owed to the person who raised the enquiries and the person on whose behalf they were raised. It will also be owed to any other person who has knowledge (personally or through an agent) of the replies before the time when he purchases, takes a tenancy of, or lends money on the security of the property or (if earlier) the time when he becomes contractually bound to do so.

This Form should be read in conjunction with the guidance notes available separately.

Area means any area in which the property is located.

References to the Local Authority include any predecessor Local Authority and also any Local Authority committee, sub-committee or other body or person exercising powers delegated by the Local Authority and their approval includes their decision to proceed. The replies given to certain enquiries cover knowledge and actions of both the District Local Authority and County Local Authority.

Where relevant, the source department for copy documents should be provided.

which is registered with the Property Codes Compliance Board (PCCB) as a subscriber to the Search Code. The PCCB independently monitors how registered search firms maintain compliance with the Code.

The Search Code:

- provides protection for homebuyers, sellers, estate agents, conveyancers and mortgage lenders who rely on the information included in property search reports undertaken by subscribers on residential and commercial property within the United Kingdom
- sets out minimum standards which firms compiling and selling search reports have to meet
- promotes the best practice and quality standards within the industry for the benefit of consumers and property professionals
- enables consumers and property professionals to have confidence in firms which subscribe to the code, their products and services.

By giving you this information, the search firm is confirming that they keep to the principles of the Code. This provides important protection for you.

The Code's core principles.

Firms which subscribe to the Search Code will::

- display the Search Code logo prominently on their search reports
- act with integrity and carry out work with due skill, care and diligence
- at all times maintain adequate and appropriate insurance to protect consumers
- conduct business in an honest, fair and professional manner
- handle complaints speedily and fairly
- ensure that products and services comply with industry registration rules and standards and relevant laws
- monitor their compliance with the Code

Complaints Procedure

Information for Customers

If you have a query or complaint about your search, you should raise it directly with the search firm, and if appropriate ask for any complaint to be considered under their formal internal complaints procedure. If you remain dissatisfied with the firm's final response, after your complaint has been formally considered, or if the firm has exceeded the response timescales, you may refer your complaint for consideration under The Property Ombudsman scheme (TPOs). The Ombudsman can award up to £5,000 to you if the Ombudsman finds that you have suffered actual financial loss and/or aggravation, distress, or inconvenience as a result of your search provider failing to keep to the Code.

Please note that all queries or complaints regarding your search should be directed to your search provider in the first instance, not to TPOs or to the PCCB.

Common Terms

Section 38 - Highways Act 1980

Section 38 relates specifically to the creation of a new highway upon land in the ownership of anyone other than the highway authority. It is an agreement between the land owner and the authority for the construction of a new highway and the ultimate adoption by the authority as a public highway. The agreement secures a bond for the cost of the works, to enable completion of the works by the authority upon default by the developer.

Section 278 - Highways Act 1980

Section 278 covers proposed highway works within the existing highway (modification of highways not general excavation for different reasons). This would generally encompass works such as new traffic islands, roundabouts, junction improvements, carriageway alignment etc. and is often accompanied by a Section 38 Agreement for works outside the highway.

Section 219 - Highways Act 1980

Section 219 - secures payment of the expenses for carrying out street works in private streets next to new buildings. This makes sure that the Local Authority can complete the roadworks if the developer is unable. If work is started on a building before the appropriate sum has been paid or secured, the owner may be liable and incur a fine.

Section 220 - Highways Act 1980

Section 220 - is served following receipt of Building Regulations approval specifying the amount to be deposited or secured in respect of the street works charges for those dwellings for which approval has been granted which must be paid before building works commence.

Section 104 - Water Industry Act 1990

Section 104 relates to the construction of new sewers by a developer, to be offered for adoption by the Water Authority as public sewers. The agreement secures a bond for the cost of the works, to enable completion of the works by the company upon default by the developer.

Section 106 - Pre-planning Agreement

Section 106 of the Town and Country Planning Act 1990 allows a local planning authority (LPA) to enter into a legally-binding agreement or planning obligation, with a land developer over a related issue. The obligation is sometimes termed as a "Section 106 agreement".

Tree Preservation Orders

Tree Preservation Orders (TPOs) are made under the Town and Country Planning Act 1990 and the Town and Country Planning (Trees) Regulations 1999.

Listed Buildings

Listed Buildings - A listed building in the United Kingdom is a building or other structure officially designated as being of special architectural, historical or cultural significance.

Community Infrastructure Levy

The Community Infrastructure Levy (CIL) is a planning charge based on legislation that came into force on 6 April 2010. When adopted, a CIL levy allows the Council to raise contributions from new development to help pay for infrastructure that is needed to support planned growth. CIL contributions can be used to supplement other funding streams and can wholly or partly fund a variety of strategic infrastructure projects ranging from transport, green infrastructure, flood defences, education and health, subject to pooling restrictions. Where a CIL charging schedule is in place, it largely replaces Section 106 Obligations in delivering strategic infrastructure. However, s106 would still be used for affordable housing and site development-related infrastructure requirements that are deemed necessary to make a development acceptable. Some developments would pay both Section 106 and CIL, but they would fund different types of infrastructure. Contributions may also be sought for Section 278 of the Highways Act where modifications are required to the highways network.

Conservation Areas

Conservation Areas - Local authorities have the power to designate as conservation areas any area of "special architectural or historic interest" whose character or appearance is worth protecting or enhancing.

Planning permission

Planning permission or planning consent is the permission required in the United Kingdom in order to be allowed to build on land, or change the use of land or buildings.

Planning Info Graphic

- Large developments: 10 or more houses (or 1-9 houses if value is greater than £1m) and all other projects with a value greater than £250,000.
- Small developments: 3-9 houses or other developments with project value of less than £250,000.
- House Extensions or new builds searched to 125m.

Please note the planning records were extracted at the time the application was submitted, the application details can be found by entering the application reference manually into the Local Authority's planning website.

The Info-graphic is using Local Authority planning information supplied and processed by Glenigan dating back 10 years, this information is designed to help you understand possible changes to the area around the property. Please note that even successful applications may not have been constructed and new applications for a site can be made if a previous one has failed. We advise that you use this information in conjunction with a visit to the property and seek further expert advice if you are concerned or considering development yourself.
